Using InDesign CS6 (ya I know it's old) on Windows. I need to use a script to move some specific characters in some text. I have created the text, converted the text to outlines, ungrouped the outlines, and released the compound paths. Then I located only the paths I need to move and ran path_first...

InDesign CS6 scripting - community.adobe.com
The Scripting Guide contains an introduction to scripting and tutorials. You can also find a number of useful scripts that you can run, such as a script that draws guides around the selected object. Some of these scripts appear by default in the Scripts panel.

Scripting in InDesign - Adobe Inc.
A script can be as simple as an automated common task or as complex as an entire new feature. You can create your own scripts, and you can run scripts that other people have created. For more information on scripting, see Scripting Guide, scripting requirements, and other developer resources.
