Here they are not confined to the definitions given to them in dictionaries but instead interact with other words in common patterns of use.

Lexical Priming by Hoey, Michael (ebook)

Priming is a phenomenon whereby exposure to one stimulus influences a response to a subsequent stimulus, without conscious guidance or intention. For example, the word NURSE is recognized more quickly following the word DOCTOR than following the word BREAD. Priming can be perceptual, associative, repetitive, positive, negative, affective, semantic, or conceptual.

Michael Hoey (linguist) - Wikipedia

of deliberate deviations from dominant primings of a lexical item. After guiding readers through the intricacies of lexical primings, Hoey highlights in the last chapter implications of his priming theory in teaching and learning a second language (L2). To compensate for the lack of an objectively correct grammar for language
