Oracle E-Business Suite applications are currently shipped with Oracle's corporate Browser Look-and-Feel (BLAF), which supplies a rich set of components for web-based applications. Although OA Personalization Framework provides you with the ability to change the look of a page by changing user interface (UI)

Personalization and Extensions for OAF Pages Developer Guide

In OAF the page definitions are stored in JDR tables normally called MDS repository. In the standard application sometimes customer wants some degree of changes in the display/ functionality. OAF has a mechanism called Personalization to achieve
