The Randall RG50TC would be a good choice for a beginner or mid-level amateur who wants the vintage Marshall tone without paying the price of a real Marshall. It's lack of power and tone options keeps it from being a serious gig amp, but it could do the job for small jam sessions.

RG50TC Review | Randall | Guitar Amplifiers | Reviews ...

The Randall name is synonymous with solid-state amps delivering bone-crunching metal mayhem for bands like Anthrax and Disturbed, not to mention the late Dimebag Darrell with his signature Warhead X2. Randall previously dabbled with all-valve designs back in the eighties, but in 2002 it decided to jump back head-first into the valve market with the introduction of the flagship MTS modular preamp range, designed by amp guru Bruce Egnater. Following on from that success, the RG50TC is Randall's ...

Schematics - Amp Repair Parts

A 2 channel amp with boost on each channel, so essentially a 4 channel amp with a huge palletete of usable tones all for €265 second hand. Brilliant☐☐ Guitary stuff from Dublin, Ireland with ...

Is this the best budget tube amp that €265 can buy? Randall RG50TC.

Hi there. My tube amp - Randall RG50TC (I have 2 of them) started to: 1. sound very thin even on high gain - it's like very low distortion all the time 2. if I palm mute and strum a chord the sound coming out of the amp "vibrates". Like an echo I have changed pre-amp tubes, I have a sticker that says position (1, 2, 4) 12AX7.
