A standard operating procedure is a set of step-by-step instructions compiled by an organization to help workers carry out complex routine operations. SOPs aim to achieve efficiency, quality output and uniformity of performance, while reducing miscommunication and failure to comply with industry regulations. The military sometimes uses the term standing operating procedure because a military SOP refers to a unit's unique procedures, which are not necessarily standard to another unit. The word "s

Standard operating procedure - Wikipedia

A standard operating procedure, or SOP, is a step-by-step set of instructions to guide team members to perform tasks in a consistent manner. SOPs are particularly important for complex tasks that must conform to regulatory standards. SOPs are also critical to ensuring efficient effort with little variation and high quality in output.
