While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

### The Adobo Book By Reynaldo

The book was really just a collection of essays and recipes from many sources. This wide plethora of authors really ruins the flow of reading due to the differences in the structure, grammar, and language (primarily in English, but at times diverged to Tagalog and Spanish). For example, Carne de Ternera en A

### The Adobo Book: Traditional & Jazzed-Up Recipes by ...

The book contains a wealth of adobo recipes from all over the Philippines. The only concern I have about the book is that some of the recipes list occasional ingredients in Tagalog and there is no glossary of Filipino cooking ingredients and cooking terms. There are a few recipes that are not in English at all.
