Trend lines are practical tools for tracking and trading trends. It makes sense to form trading strategies with this simple but useful tool. Many traders who seem to trade with a blank chart have in fact internalised the art of trend line drawing. They can visualise the trend lines with actually drawing them. Trend lines track trends. And when ...

4 Trading Strategies For The Trend Line Tactician

Step Two: Identify a Breakout point Trendline Trading System. In order to find a breakout point of the trend that was identified in step one, the strategy will use a combination of the three indicators (MACD, 15 minute SMA, EMA) to identify a break out on the 15-minute time frame. This time frame is used because a trend was already identified in step one on the 4 hours and 1 hour time frames.

Trend line trading Strategy- Trading Strategy Guides

Trading with the trend: Channels and trend lines Channels and trend lines are another way of identifying the direction of a trend and they can also help you understand range markets much better. Whereas moving averages and the analysis of highs and lows can also be used during early trend stages, trendlines are better suited for later trend stages because you need at least 2 touch-points ...
